Here are some tips to enrich your art making experiences with your children:

- As often as you can, sit down and draw **with** them! They are your biggest fan, so if they see you doing something, they will want to do it too!
- Ask **questions** about what your child is making to show interest in their ideas and to encourage exploration!
- Try **documenting** their replies to keep a record of their skills

Ex. September 20, 2012, Age 6, Color Pencil Drawing, "Riding bikes at the park"

- Make a **variety** of materials available to your children so they can express themselves in a multitude of ways, and they can find the ways that are most enjoyable to them!
- **Praise** your child's artistic achievements! They are coming to you for recognition and approval, so make them feel special by **displaying** their work for everyone to see!
- The best part of keeping your child's artwork is to **show them** their improvements! This will improve their self confidence and inspire them to keep creating!

Making! :)

Happy Art
